PROFILE

Master's student in Intelligent Systems Engineering, passionate about technology and software development. Seeking an internship to apply my skills and grow in a collaborative environment.

EDUCATION

Master's Degree in Intelligent Systems Engineering – Software Engineering <i>Faculty of Sciences, Ain Chock</i>	10/2024 – Present Casablanca, Morocco
Professional Bachelor's Degree: Computer Systems and Software Engineering <i>Higher School of Technology</i>	06/2024 Essaouira, Morocco
DUT in Computer Engineering <i>Higher School of Technology</i>	06/2023 Safi, Morocco
Baccalaureate in Physical Sciences <i>Lycée Qualifiant Ibn Khaldoun</i>	06/2021 Safi, Morocco

PROFESSIONAL EXPERIENCE

Development of a web application for geospatial visualization and user request analysis (End-of-Studies Internship) <i>Saphir Innovation</i> - Designed and developed an interactive web application for geospatial visualization, enabling administrators to monitor client requests and agency performance. - Implemented dynamic filters and analytical charts to explore data by country and administrative divisions, enhancing decision-making. - Built geometry management and mapping features for importing KML files and visualizing data interactively. - Technologies : MERN Stack (MongoDB, Express.js, React.js, Node.js) · Leaflet.js · Turf.js · Docker · Postman	04/2024 – 06/2024 Safi, Morocco
Development of a web application for expense management (End-of-Studies Internship) <i>Marsa Maroc</i> - Designed and developed a complete web solution for managing expenses, vouchers, suppliers, and users with an intuitive dashboard. - Implemented secure CRUD operations, authentication, and automated report generation (PDF, Excel, CSV). - Developed the application following the MVC architecture to ensure scalability and maintainability. - Technologies : Laravel · MySQL · HTML5 · CSS3 · JavaScript · Bootstrap · XAMPP	04/2023 – 06/2023 Safi, Morocco
Development of a web and mobile application 'TABIBI' for emergency management (Final Year Project) <i>Higher School of Technology</i> - Designed and developed a web and mobile application for emergency management to streamline communication between patients and healthcare professionals. - Built a responsive interface for mobile and web using modern frameworks and ensured real-time synchronization of data. - Focused on user experience and quick accessibility in critical situations. - Technologies : Laravel · React Native · Bootstrap · TailwindCSS · HTML5 · REST API	06/2023 Safi, Morocco
Development of a web application for pharmacy management (Initiation Internship) <i>Pharmacy Achbar</i> - Developed a management system for medicines, sales, orders, clients, and suppliers. - Created interactive dashboards for inventory tracking and sales management with CRUD operations. - Delivered an ergonomic and efficient interface for daily pharmacy operations. - Technologies : PHP · MySQL · HTML5 · CSS3 · XAMPP · PowerDesigner	06/2022 – 07/2022 Safi, Morocco

SKILLS

Programming languages

Java, C,C++, Python, PHP,JavaScript,HTML,CSS

Data Analysis & Machine Learning

Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch

Big Data & Cloud Technologies

Hadoop, HDFS, Hive, HBase, Apache Airflow, Docker, GitHub

Tools & Software

Git, LaTeX, Microsoft Office

Emerging Technologies

IoT

Soft skills

Strong analytical thinking, problem-solving, adaptability, teamwork, effective communication

Frameworks / Libraries

Flask, Node.js, Express.js, React.js ,Angular , Laravel, Leaflet

Databases

MySQL, PostgreSQL, Oracle (PL/SQL), MongoDB

Modeling & Methodologies

Merise, UML, Scrum, Project Management

Operating Systems

Linux, Windows

APIs / Web Services

REST

PROJECTS

Smart Irrigation IoT System

- Automated irrigation and environmental monitoring — ESP32, DHT11, Firebase, Flutter
- Built an IoT system using **ESP32**, **DHT11**, and soil moisture sensors for real-time environmental tracking.
 - Connected data to **Firebase** and displayed it in a **Flutter** mobile app with a chatbot assistant.
 - Implemented automation logic for water control and data visualization to optimize irrigation efficiency.

Spell Checker Web Application

- Intelligent spelling and grammar checker — Flask, React.js, MongoDB, GPT-2
- Developed a multilingual corrector (French/English) combining **SpaCy** and **LanguageTool** for linguistic analysis.
 - Integrated the **GPT-2** model to generate accurate and context-aware text suggestions.
 - Designed a secure **Flask API** and an interactive **React.js** interface for real-time correction.

CERTIFICATES

Cisco Networking Academy

CCNAV7: Introduction to networks

Internet Society

Encryption Certificate

EF Education First

English Proficiency Certificate

INTERESTS

- Participation in student workshops and technology conferences
- Volunteer work
- Music
- Drawing

LANGUAGES

Arabic

Native

English

Advanced (C1)
